

How to separate and dispose of household waste

From April 1, Reiwa 6, the method of disposing of garbage will change partially.

- Put all but paper and oversized garbage in the designated garbage bag.
- You can't collect it unless you tie the mouth of the bag (do not use gum tape)
- Let's keep the garbage collection area clean by the user

Burnable garbage (combustibles)

Items that are too large to fit in one designated garbage bag should be placed in bulky garbage.

※The above items cannot be processed at the cleaning center. When disposing of it, please consult with the place of purchase or a specialist. If you cannot pick it up at a store, please contact the Resident's Life Division.

Business waste

Garbage generated from business activities (business establishment, shops, hospitals, etc.) must be disposed of at the business operator's own risk and cannot be collected in the town. Please entrust it to a licensed contractor, or bring it to cleaning center or an industrial waste treatment plant by yourself.

recycling

Newspapers, leaflets, magazines
(including confectionary boxes, etc.)
books, Paper bag, cardboard

Wrap each item firmly in a cross with a string.
Avoid rainy days as much as possible and put it out for the next collection.

Drink, liquor bottles
gogobottles, one-boxbottles and beerbottles will you pick it up at the store or please send it to the local group collection.

Beverage cans (juice cans, beer cans, etc.)
Food cans (canned foods, confectionary cans, Nori cans, etc.)

Wash clean dry and serve.

Food and beverage bottles
Pet bottle
Do not cut it please
· Be sure to remove the cap.
Remove the contents and be sure to rinse lightly.
Remove the label.

Let's try to reduce the amount of garbage and recycle it!

Collection of bottles

In order to promote the reuse of liquor bottles, liquor bottle collection stations have been set up at the town hall building and the Chuo-Kawasaki District Community Center.

Collected items one-boxbottles, gogo bottles
※Beer bottles, juice bottles, etc. are not eligible.

(Request)
· Wash the inside of the bottle thoroughly, dry it, and then serve.
· Please put out the broken bottle on the day of garbage that does not burn.
· Please put only the bottle in the container and take the bag home.
· Please do not put it out with the contents left.

Separate collection of hazardous waste

Since fires have occurred in collection vehicles and treatment facilities due to hazardous waste, we will collect it separately to prevent it.

Types of hazardous waste: Flammable cassette cylinders, spray cans, aerosol cans, disposable lighters.

●How to put it out: Be sure to use up the contents, put them in a transparent or translucent bag without making a hole, and tie it to the knot of the designated garbage bag for non-burnable garbage and put it out.

* If you do not have a transparent or translucent bag, or if you want to dispose of only hazardous garbage, please put only hazardous garbage in the designated garbage bag for non-burnable garbage.

Recycling of used small household appliances

Please put the small household appliances that correspond to the following collection items (size 15cm×25cm or less please put things) in the collection boxes installed in 9 public facilities.

- ▶ Exchange open space HiCaLi

Home Appliance Recycling

The four home appliances listed on the right are subject to the Home Appliance Recycling Law and cannot be disposal of as garbage or brought to a cleaning center. If you want to dispose of it, ask an electric shop to pick it up. At that time, "recycling fee" and "collection and transportation fee" is required.

Collection request destination

① Please ask "the store you purchased in the past" or "the store you replaced" to pick up the item.

② If it is difficult to collect in ①, apply for the oversized garbage collection in the town.

Procedure

- ① Pay the recycling fee at the post office and receive the "Home Appliances Recycling Ticket"
- ② Bring a "Home Appliances Recycling Ticket" and apply at the Resident's Life Division window. A separate collection and transportation fee is required (2,200yen)

※For the recycling fee, please contact the store requesting collection directly or please take a look at the home page of the Home Appliance Recycling Ticket Center.

◎ Home Appliance Recycling Ticket Center
http://www.rkc.aeha.or.jp/text/p_price.html

PC recycling

PCs and monitors are collected and recycled by manufacturers. Please check the manufacture of the PC to be discarded and apply for collection from the homepage or dedicated dial. For PCs that do not have a manufacturer to collect, such as home-built PCs and PCs of bankrupt manufacturers, please apply using the website (<http://www.pc3r.jp>) of "PC 3R Promotion Association" or dedicated dial (Tel 03-5282-7685) PCs with the PC recycling mark pay "collection and recycling fee" at the time of purchase, so "collection and recycling fee" is not required.

Fire extinguisher recycling

The fire extinguisher manufacture is recycling (paid) the fire extinguisher. Please contact the fire extinguisher store that collect the waste fire extinguisher and the detail of the recycling system (Fire Extinguisher Recycling Promotion Center (tel 03-5829-6773))

Collective collection of recyclable waste

We are promoting group collection by voluntary groups such as children's associations and senior citizens' clubs.

Recycling items: Newspaper, leaflets, magazines, books, Confectionary boxes, Cardboard, Milk carton (Wash and dry)

Wrap each with a string

- Gogo bottle (Colors only)
- One box bottle (Colors only)
- Beer bottle
- Aluminum cans
